Election.

[Special to The Times-Dispatch.]

Blacksburg, Va., October 23.—At the regular October meeting of the Blacksburg Board of Trade on Tuesday night Dr. S. W. Fletcher read the president's report for the year; plans were outlined for the campaign in behalf of the bond issue election to impose the roads in the district; the question of a botter and bigger school building in the town was discussed, and an inspiring address was made by President Eggleston, of the V. P. I., on "Mutual Interests of the Town and College." It was decided to leave the matter of a bond issue for the school building until after that for good roads has been settled, and the roads committee outlined the plan it has in mind for an extensive campaign, through the press and by personal work, to win over those who are known to be opposed to the move. It was decided at a meeting of the board a month ago to petition Judge Moffett, through the supervisors, for an election to vote on a bond issue of \$100,000 for better roads in Blacksburg district, and this will be done as soon as possible.

The school question received fresh impetus, however, in Mr. Eggleston's address, for it

Issue of \$100,000 for better roads in Blacksburg district, and this will be done as soon as possible.

The school question received fresh impetus, however, in Mr. Eggleston's address, for it was the one subject, he said, that he felt he could speak on without fear of contradiction. After teiling the members of his interest in Blacksburg and his desire to cooperate with the Council, the Mayor and the citizens in every thing that makes for the welfare of the town and college, the speaker launched into a full discussion of the school question in many of its phases. Showing just how inadequate the present school-houge is to accommodate over 300 children and how it is impossible for nine teachers to do the work that should be done by at least lifteen, Mr. Eggleston told, in a very practical way, just how Blacksburg could get the desired school building and have the means to employ the necessary additional teachers. He pledged his support, financially and in other ways to the move, and his talk, based as it was on his experience as Superintendent of Public Instruction in Virginia, cleared upmany points that had been standing in the way of the school committee of the board. He emphasized the very great advertisement that a good school building here would be for the town, and what an inducement it would be to people to corne to Blacksburg to educate their children, thus proving a mutual benefit to the college in getting students and to the property owners in making building lots and louses in demand. Mr. Eggleston also promised his help in the campalgin throughout the district for better schools and roads.

The report of Dr. Fletcher for the first year of the Board of Trade was very encouraging. There are now eighty-six pald members and cleven public meetings were held

CAUGHT IN PHILADELPHIA.

Man Wauted for Murder Now in Bowling Green Jail.

[Special to The Times-Dispatch.]

Bowling Green, Va., October 23.—
Sheriff T. B. Gill arrived here last night from Philadelphia, having in charge Milton Jones, who is under indictment here for murder. The crime for white Jones is now in jail awaiting trial was committed on July 12 at Delos, where a colored entertainment for a church was in progress. It seems that Jones's brother became involved in a quarrel with Emory Holmes, when Milton Jones on coming up to where the altercation was going on, drew a pistol and fired three times at Holmes, from the effects of which he died in a short while. Jones made his escape, and went to Philadelphia, where he was located a few days since.
